Study was conducted in 129 Districts of 30 States/UTs of the country, including the State of Himachal Pradesh.

(d) and (e) The State of Himachal Pradesh has been ranked 9th among the States according to their performance in the implementation of the NSAP Schemes. The ranking scheme was developed by using certain paramenters like coverage of the Scheme, utilisation of the funds, economic backwardness of the recipients, timeliness of release of benefits, expenditure incurred for the recipients for getting the benefits, impact of the NSAP Schemes on social development, follow-up actions by the concerned Officials on complaints from beneficiaries etc. and providing appropriate weightages for the selected parameters. The impact of the NSAP Schemes on social development in the State of Himachal Pradesh, has been rated as 'to some extent' in case of NOAPS and NFBS while in case of NMBS, similar rating has been given only for pre-natal care. The Study however, pertains to the period from 1996-97 to 1998-99. It also covered only two Districts in Himachal Pradesh *viz.*, Solan and Mandi. The Report does not provide District-wise and Panchayat-wise, details.
